Contemporary families are changing in ways that suggest to some that the family is in decline. Baca Zinn and Eitzen show how social forces impact families and cause them to change over time. Pre-Industrial Families 1600-1800 had large numbers of children. Family life in the pre-industrial period was characterized by the dominance of a family-based economy which is explored in...

However, few research articles consider the steps of social media analytics. Such frameworks take the form of process models. Fan and Gordon (2014) propose a process for social media analytics consisting of three steps "capture", "understand", and "present". The authors state that the step of capture consists of gathering the data and preprocessing it, whereas pertinent information ...

Social media analytics - Challenges in topic discovery ...

In this paper, the concept of social capital is introduced and illustrated, its forms are described, the social structural conditions under which it arises

are examined, and it is used in an analysis of dropouts from high school. Use of the concept of social capital is part of a general theoretical strategy discussed in the paper: taking rational action as a starting point but rejecting the ...
