### **2019 Mazda CX-5 Diesel Review - AutoGuide.com**

For Mazda CX-5 models with 2.2-litre 'SkyActiv-D' turbo-diesel engines, particulate matter could accumulate in the diesel particulate filter (DPF) if the vehicle was frequently used for short runs (due to insufficient heat being generated to burn the particulate matter). To stop the filter becoming clogged, diesel fuel could be discharged during the exhaust stroke to raise engine temperatures, but some diesel fuel could enter the oil sump and dilute/contaminate the engine oil.

### **Recalls and faults: Mazda KE CX-5 (2012-16)**

Causes of NOx and Soot Formation. Due to the fact that diesel engines generally have a high compression ratio, the compression temperature and pressure at piston top dead center (TDC) are extremely high.
