There are hundreds of books available here, in all sorts of interesting genres, and all of them are

completely free. One of the best features of this site is that not all of the books listed here are classic or creative commons books.

ManyBooks is in transition at the time of this writing. A beta test version of the site is available that features a serviceable

term for a low pressure system whose central pressure falls 24 millibars in 24 hours in a process known as explosive cyclogenesis.. Rapid acceleration of air caused by the jet stream high up in the atmosphere can remove air from the column, reducing its weight so causing pressure to fall at sea level.
